---

*A Systems Engineering student passionate about web development and continuous learning. I am seeking opportunities that allow me to apply my knowledge in challenging projects while continuing to develop my technical and personal skills. I am committed to professional and personal growth and wish to actively contribute to the success of the teams and projects I participate in.*

## EXPERIENCE

---

### NAABOL – Navegación Aérea y Aeropuertos Bolivianos(Internship)

Cochabamba, Bolivia

Fullstack developer

September 2024–December 2024

- Assisted in the development of a new platform for vehicle registration and billing for the use of private airport parking for customers on short trips.
- Facilitated the vehicle registration process, reducing the time required for users and improving the operational efficiency of the platform.
- Implemented a role and permission management system that controlled access to various platform functionalities, ensuring users could only perform actions according to their authorization levels.
- Developed a dynamic reporting system that allowed users to select and filter data in real time, providing more personalized and relevant report generation.
- Utilized the following technologies in the project: Angular for the frontend, Java and Spring Boot for the backend, and SQL Server for the database, which enabled the development of a robust, scalable, and maintainable platform.

## EDUCATION

---

### Instituto Americano Cochabamba

Cochabamba, Bolivia

High School Diploma

### Universidad Mayor de San Simón

Cochabamba, Bolivia

Bachelor's Degree in Systems Engineering

## SKILLS

---

- **Languages:** JavaScript, TypeScript, Java, SQL ,HTML ,CSS
- **Technologies:** React, TailwindCSS, Angular, MySQL, MongoDB, Git

## LANGUAGE

---

- **Spanish:** Native
- **English:** Basic
